Be part of an excellent business opportunity

At **Double Pop® Licence ApS**, we strongly believe in the continuing prediction of an increasing market for chocolate bars. It is our belief that within a few years, with help from all our Licensees around the world, we will see sales of up to 400 million **Double Up Pop®** chocolate bars worldwide.

The first license agreement has been signed – will you be the next?

The first license agreement has been signed with Viking Chokolade A/S covering Denmark, Norway, Sweden, Island and Greenland. The first Chocolate bars will be sold from September 1st exclusively by 7-Eleven. Double Pop License ApS is looking for new Licensees worldwide and expect to sign at least 3 license agreements within the next 6 months.

One of many advantages - extend the return on your facility investment

Take advantage of your existing production facilities and maximize productivity – use your production capacity to the maximum limit. It is possible to produce **Double Up Pop®** chocolate bars by using your existing machinery. This gives you a great opportunity to keep your production running at all times and eliminate falling into a seasonal production stop.

Your potential financial outcome as a Licensee

The potential financial outcome of starting production of **Double Up Pop®** chocolate bars is a very profitable one. If you are in the chocolate and biscuit industry you probably already have some of the following machinery available – all usable for the production of **Double Up Pop®** chocolate bars

- Oil boilers for the steel tanks
- Caramelizer
- Chocolate coating machine
- Cooling lane for chocolate coating machine
- Chocolate tempering machine
- Flow packing machine

By applying for a Double Pop Licence, you can enter this market – a unique first mover business opportunity.

Your gross profit per packaging is more than €0,19
